

The Mayor's Local Transport Plan Consultation is open now

Have Your Say by Sunday 26th January 2025

The Local Transport Plan sets out that we want to make journey planning simpler, making information more available and easier to find, with simple, affordable tickets that can be used on multiple forms of transport.

We want to improve our transport network to make it easier and smoother to travel across different forms of transport.

We will grow our transport network to reach all parts of our region, whilst better equipping it to handle problems, minimising disruption.

We will do everything in our power to make sure everyone feels safe at all stages of their journey.

But what do you think?

Have your say by completing our online survey. Alternatively you can respond via email, in writing, or via telephone.

Please contact us to request a free copy of the Local Transport Plan.
